

Food Contact Declaration

All raw polymer material used in the manufacture of eva sheet products confirm to the following food contact regulations.

US FDA Compliance (21 CFR 177.1350)

Under 21 CFR 177.1520(a)(1)(i), this eva may be safely used for teeth whitening customized mouth tray and other products blister die forming. Ethylene-vinyl acetate copolymers consist of basic resins produced by the catalytic copolymerization of ethylene and vinyl acetate to which may have been added certain optional substances to impart desired technological or physical properties to the resin. Subject to any limitations prescribed in this section, the optional substances may include substances generally recognized as safe in food and food packaging.

EU Food Contact Compliance – Commission Regulation (EU) No 10/2011

Our product EVA meet the relevant requirements of Commission Regulation (EU) No 10/2011 as amended under the Framework Regulation EU 1935/2004. Please send an email to your usual sales or technical contact if you need an EU Declaration of Compliance.
